

TEMPLATE FOR JIGSAW

WHAT YOU WILL NEED:

- a copy of the template (please see the jigsaw template on following page)
- colouring in pencils/textas
- cardboard,
- scissors
- glue.
- some hairspray to spray over the cardboard lightly to seal.

Children can colour in the template, adding other Aboriginal designs if they desire. When completed, glue onto cardboard and let dry. When dry, cut along dotted lines and you now have your own jigsaw. This type of jigsaw can also be put onto ply board. Other pictures such as photos or drawings can be done in the same way.
