The Youth Voice Engagement report shares what we heard.

## Here's what we're doing

- Establishing a 16-member Youth Subcommittee to the SNAICC Council, representing diverse young people across every state and territory
- Building local networks linked to national advocacy and reform
- Building ambassador roles to amplify young voices

## What's next?

- A Youth Voice newsletter to help you stay connected and yarn
- The first annual Youth Voice Gathering in September 2026 to hear directly from young mob

## We heard that young mob...

- Want authentic representation and inclusive governance
- Want a genuine platform for self-determination, not a tokenistic advisory body
- Want flexible, culturally safe pathways to engage
- Want community driven leadership, mentorship and long-term sustainability
